# REBELS

by RONY PLESŁ

Why should lamps only stand on tables when they can fly?  
Why should lamps be idle when they can rotate? What lies beneath the light? Lightness or darkness...

Sans Souci and Rony Plesł introduce another dimension in the world of lighting.

A set of lamps with a stand and a pedestal levitating freely in the air. There is something rebellious about it, underlined by independence and freedom.

# ABOUT DESIGNER

Sculptor and designer Rony Plesl is well known for his original glass sculptures. He primarily creates fine art works, works for architecture, and designer works; his limited collections of handblown and handground vases and glassware have become iconic items for collectors and are currently included in the most prestigious private and public collections both in the Czech Republic and abroad.
