

SANS  SOUCI

THE STORY
ABOUT
SYMPHONY

SYMPHONY

The basic idea behind the refined crystal tubes is the combination of metal coating and cutting, which, by themselves, are two commonly used techniques. By combining them, a new, unique pattern is created. As the coating is gradually cut off, the diamond pattern is imbued with a delicate golden gradient that crowns the entire concept.

DIMENSIONS variable

METALFINISH polished stainless steel

LIGHTSOURCE G9

COMPONENTS machine cut tubes, brass nanocoating finish

DESIGNER Jiří Křišica

ABOUT DESIGNER

Jiří Krišica

the Lead Designer of Sans Souci

"I am fascinated by manual work, by the power the master hand-blowers are having in their hands. On the other side, I love new technologies, which are giving to glass new vibes, like slumped or nano-coated glass which spin our designs to different luxury level."
